Fullstack Developer(JavaScript, React, FastAPI)

Obafemi Awolowo University - ile-ife

October 2021 to January 2022

This is an e-commerce API built with python framework (FastApi), The frontend was also built with React. In this project, there is a user segment, where user will first register and login Before gaining access to the store, and there is also an admin segment Where only the admin can add product to the store.
